ness.

The following clipping will have an

interest for many of our village people

on account of pleasant memories of Dr.

and Mrs. Kimball's visits among us, as

well as for their many benefactions to

the Universalist society. Mrs. Kim-

ball's life was spent in helping to

help others and we can only regret

her passing. She was a true friend

and companion.

A written attack of pertussis

seized the dear Mrs. Grace E.

Kimball, wife of Dr. H. H. Kim-

ball, yesterday at her family home,

219 East Twenty-fourth street.

Mrs. Kimball was active in club

and social work, and beloved by a

large circle of friends. The entire

circle of friends in which Mrs. Kim-

ball resided is plunged in sorrow

over her sudden and untimely

death. Mrs. Kimball was the

daughter of the late Dorcas Mar-

riam, one of the wealthiest and

most prominent, politically and

commercially of the early Maine

apostates. She was 23 years of

age, and had lived in Minneapolis

since her fourth year when she

was brought to this city by her

parents. Most of her life was a

healthy one and an active one,

making her sudden death the great

or shock because of its unexpected

ness. The only relatives surviving

Mrs. Kimball are her husband

and a brother, Clinton Morrison.

Funeral services will be held at the

congregation Monday at 2 o'clock.

The family requests that no flow-

ers be sent.

## Christmas Bargains

For twelve years Christmas Gifts have been a specialty in my business, twelve Decembers have seen my stock grow from a humble beginning to the largest and best stock of Holiday goods in town. Twelve years of buying has given an experience and judgment in selection and values which has in the past left very few Christmas goods on my counters and shelves by December 26th. This year almost every thing is new fresh goods and by buying in the open market here and there wherever the best values were offered and at lowest cash prices. Many of my goods are exceptional bargains and coming just at this time offer to the Christmas shoppers chances to procure much better gifts at lower prices than is often possible.

Open six evenings a week from now till Christmas.

three easily to spring and grip tightly the muscles surrounding the heart's action. Don't neglect these warnings; they are the danger signals Nature sends to you for help. You must recognize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure Rheumatism is to get it off from the inside with this. It acts with marvellous swiftness upon the muscles, kidneys and blood. When set the mind into motion in the muscles, forces the kidneys to perform those duties for which they were designed and neutralize the acid which it's blood.

Your physician will admit that this is the only true way to cure Rheumatism permanently, and should know that this is the one remedy that will do it successfully and permanently. It is in a liquid taken internally, it cures pain, and does not contain any mercury, opium or other so-called "pain killers." It is good for Rheumatism in any form. Swelling, Muscular, Rheumatic and Arterial Rheumatism all yield readily to this. Write the makers at the remedy and they will tell you of many wonderful cures that this has made right here in your own town.

eyes and open mouths to the evening  
Joans of their fellow member. From  
time to time, as Bob Browney poured  
forth his shot and shell of deadly lead  
from the vast mob that now surrounded  
the ex-convict, rose a hoarse howl  
of impotent rage. Now in that dense  
throng outside could be heard with  
alliance of the gigantic human crusher,  
which between the hours of ten and  
three was never before known to mis-  
fire a revolution except while its victims'  
souls were being removed  
from its grasp by the shears.

Bob Browney paused and looked  
down into the faces of the breathless  
gamblers with a contempt that was  
superb. He went on:

"Men of Wall street, it is writ in the  
book of the ancients that every evil  
contains within itself the seed of its  
destruier. I do not pretend that you are  
revealing to you is to you a destru-  
er for this hideous evil, but I do say that  
what I am giving you is a destruer  
for it, and that while it will be to the  
benefit of the cure, it may leave you in a  
more dire straits than the cure of which  
you now feel the names. I do not say  
if it does. When I am through, any  
member of the New York stock ex-  
change who feels the iron in his soul  
can get instant revenge and unlimited  
wealth. Those are turning over in  
your minds the consequences of your  
great body can make new rules to  
render my discovery inoperative, or  
dealing with a shadow. There is no  
rule or device that can prevent its  
working. There are 1,000 seats in the  
New York exchange. They are  
worth, today, \$2,000.

"\$90,680 in it. Their value is due to the fact that this exchange deals in between one and three million shares a day. Were any attempt made to prevent the operation of my invention, there would be five or ten thousand shares per day, or to such quantities represented stock that will be actually delivered and actually paid for. To make my invention useless it must be made impossible to buy or sell the same share of stock more than once in one session and short selling, which as you know, the foundation of the modern stock gambling structure, must likewise be made impossible. If I am successful, the \$75,000,000 worth of waste in the exchange would be worth less than two millions, and what is of far greater benefit to all the people, the financial world would be reconstituted. Men of Wall street do not feel themselves. My invention is a true destroyer of the greatest curse to the world, stock gambling."

A sudden glow rose from the gambler's face. He suddenly stared down at me.

"Let me show you the impossibility of preventing in the future anyone from knowing what I have done to reduce the losses during the past five years. It is the capital required to work my invention to nerve and desperation, or without without desperation. It is well known to you that there are at all times exchange members who will commit any crime, bearing perhaps, mind, to gain money. Your members have been from time to time known to have resorted to such crimes as, false certificates, altered checks, counterfeit stocks and bonds, and if this fear of loss has millions, it was when detection was probable. All men are criminal offenders and their detection is sure to bring disgrace and pain prison. Yet members of this exchange desperate enough to take the chance, when confronted with loss of time and open bankruptcy, have always been found with nerve enough to attempt the crimes. I repeat that there are at all times exchange members who will commit any crime, bearing no punishment except the loss of money. You may see that my invention is surely come from your midst from now on to limit during the future millions of the exchange, I will separate different classes of members who follow in my footsteps."

(He bowed.)
